

I am the primary owner and founder of A Happy House Home Inspection, LLC. I immensely enjoy and have the great privilege of performing the majority of the inspections for my company and clients. My whole life, I have spent learning the inner workings of homes and their systems, which enables me to pay swift attention to detail and provide you with a thorough report of the property you are potentially purchasing. I realized my dream of owning my own company and helping buyers with their home purchase through inspections in 2008, and I have been performing home inspections daily throughout the state ever since. I am NACHI certified, Radon Certified, and a Certified Pool Operator. We as a company are also bonded and insured for your protection as a consumer. It is both my duty and my goal to ensure you are completely comfortable with the investment you are about to make by walking you through the property and explaining in detail key components and any potential issues that might exist. I take pride in my work and take very seriously the job you have entrusted me to perform. Your questions are always my pleasure to answer and I am always willing to provide additional information that will help you not only at the time of purchase, but also increase your basic knowledge of the important parts of your new home. I use the most current and technologically advanced equipment for my inspections, including digital signatures on Pre-Inspection Agreements and e-mailed documents. I take many pictures during the inspection and include them in your customized inspection report to ensure you have visual evidence of any potential issues that you can refer back to if need be. My processes are swifter than the old “paper and pen” methods, which allow me to spend more time with you, the buyer, as opposed to taking extra handwritten notes. I look forward to developing a personal and business relationship with each of my clients and helping them out both now and in the future as much as I possibly can. Your complete satisfaction and confidence is my ultimate goal.
